DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This small stone house is located on the west side of Carsins Run Road and faces east. This rubble stone structure is two stories high and covered with asphalt. A stuccoed, corbelled brick chimney is located at each inside end. The principal door is in the center bay of the east facade. A two light transom is overhead while side lights of three panes each flank the door way. Windows through out the house are six lights over six. There are four windows at the second elevation of the east facade. Attic windows of four lights are the only windows on the north and south facade.

The interior of this house could be seen through broken windows and doors. A large fireplace is still present on the north wall. It is stuccoed and has no mantle. On the south wall no fireplace remains, just a hole for a wood stove. A center stairway has a plain newel and handrail and square balusters.

A one story cinder-block addition attached to the west wall mars this house's simple beauty. A mound of rubble and old plaster is located at the rear of the house.

STATEMENT OF SIGNIFICANCE

This small stone house is in lamentable condition. Abandoned several years ago, this house has been vandalized and left to the elements.

The house's main unit, the three bay, two story stone section is a twin to another house, HA-989, located on Carsins Run Road, north of Churchville Road.

The 1858 Jennings and Herrick Map of the County shows a house on this spot but gives no owners name. The Martenet map of 1878 gives H. and W. Preston as the owners. This corresponds with the chain of title.

DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

This little stone house needs attention; there are large cracks in the masonry, and woodwork needs repair and paint.

L-shaped, the house faces south. 3 bays by 0 on the first floor, 4 by 0 upstairs. Masonry has been disturbed and inadequately replaced around the two windows downstairs. A lintel is still in place, on each side, wide enough for a wagon door. The center hall door has 6 lights and 3 on either side of the doorway. Windows have 6 lights over 6 except that ^{upstairs} the lower sashes have been replaced with plywood in a way that is not secure against the weather.

With no heat, electricity or telephone, the house is unsuitable for occupancy now.

STATEMENT OF SIGNIFICANCE (Include Personages, Dates, Events, Etc.)

It is difficult to understand alterations to this house. Masonry was altered in the front wall, but not around the front door. Possibly a house was altered to make a shop for blacksmith, wheelwright etc. and then put back, leaving hints in the new
